

CARES Website Refresh

May 31, 2010 – Nautilus Minerals Inc. (TSX & AIM: NUS) is pleased to announce it has just completed a refresh of the CARES (Community Accountable, Responsible Environmentally and Safe) website. The CARES site houses all relevant information regarding our Community, Environmental, Safety and Health activities and is intended to increase transparency and ease of access to information about our activities. Please visit our updated photo gallery section or download our CARES factsheet which can be found under the multimedia section of the website.

The current CARES site is simply the start. We will grow and expand our CARES programs as we move towards production. Please visit us at www.cares.nautilusminerals.com
